

## Index of Greek Manuscripts

### Introduction

There are fifteen Greek manuscripts in St John's College Library. The following index is loosely based on the index of names in Mark L. Sosower, *A Descriptive Catalogue of Greek Manuscripts at St John's College, Oxford*, with descriptions of bindings by Jane Eagan (Oxford: St Johns College Research Centre, 2007), pp. 112–15.

Page references relating to the printed catalogue have been substituted for the relevant shelfmarks. References to former owners are being relocated to the provenance index, unless the former owner was also the scribe in which case the individual's name also appears here. References to Appendix 2 (Greek Books at St John's College in 1539) have been omitted. References that do not relate to Greek manuscripts at St John's College have been omitted.

Subject headings and genres of texts have been added. General subject headings are marked by a light blue background. General categories and genres of texts are marked by a light green background.

Place names in this index relate to the location of production or compilation.
